Parent-Teacher Conference Day

MEET & GREET

Our recent Parent-Teacher Conference, held on 22nd March 2024, was a pivotal moment in strengthening the bond between home and school. Bringing together Years 7 to 11, this event provided a comprehensive platform for discussing student progress and fostering collaborative relationships.

From 2 pm to 5 pm, our school was alive with productive dialogues between teachers and parents, focusing on the academic, social, and emotional growth of our students. Teachers shared valuable insights into students' performances, celebrating achievements and identifying areas for improvement. **Parents actively engaged in discussions, gaining valuable insights into their child's academic strengths and areas needing attention.** The dedication and concern shown by both teachers and parents were inspiring, reflecting our shared commitment to student success.

The turnout was exceptional, with a strong presence of parents actively participating. Your engagement underscores the importance of the partnership between home and school in nurturing our students' development.

We extend our heartfelt gratitude to all parents who attended and contributed to the enriching discussions. Your involvement is instrumental in creating a supportive learning environment for our students. As we reflect on the success of our recent conference, let's continue to collaborate closely. Together, we can inspire growth, foster resilience, and empower our students to thrive academically and personally.

Visit to IPK Polis Bukit Beruang

On the afternoon of Tuesday, 30th January 2024, Ms Roquia and Mr Satya from UUMISM joined several other international schools in visiting the Melaka Contingent Police Headquarters (IPK Polis) in Bukit Beruang.

The gathering was organised by the Crime Prevention & Community Safety Department of the Melaka Police, led by Assistant Commissioner Foo Jet Seng, to foster collaboration between schools and law enforcement.

Among other police representatives, DSP Nor Azlinda in particular gave an engaging talk, shedding light on effective school safety and crime prevention strategies. She also highlighted the array of services the police offer, emphasising their commitment to work with educational institutions to ensure community safety.

As the event concluded, participants gathered for a group photo, followed by afternoon tea, where they had the opportunity to network with one another. UUMISM looks forward to engaging more with the Melaka Police in future, as we strive to create a safe, secure environment for everyone.

UUMISM STUDENTS DIVE INTO MMU's STEM Carnival

Sixteen UUMISM students from Year 9, Year 10, and the Specialised Golf class attended Multimedia University (MMU) Melaka's Futuristic Education @ STEM Carnival, held on Wednesday, 7th February 2024. They were accompanied by two teachers. Several other Melakan public and international schools also participated.

After an early departure from UUMISM, the day began at MMU with breakfast and an opening ceremony featuring speeches by MMU leadership, tech presentations, and a Q&A session in which students could win prizes.

UUMISM STUDENTS DIVE INTO MMU's STEM Carnival

This was followed by breakout sessions covering Engineering, Communications, Film-Making, IT and Business: all courses offered by MMU. Students engaged in various hands-on activities like bridge design, short movie-making, and programming robots. Meanwhile, teachers attended a separate session where they learned about scholarships students could avail of and networked with MMU administrators.

The day concluded with lunch and a return to UUMISM, leaving students feeling enthused about future tertiary educational opportunities, particularly in STEM fields.
