UUM International Secondary School Melaka Triumphs at **AIIRC 2025**

On Tuesday, 24 June, The **Airborne Innovation International RC Jet Competition (AIIRC) 2025** took place on 25–26 June 2025 at Politeknik Merlimau, Melaka. This exciting two-day international event brought together passionate RC (remote-controlled) jet builders and flyers from around the world to showcase their creativity and engineering skills.

The competition was split into two parts. On Day 1, teams were given time to build their RC jets using lightweight materials Depron foam and other easy-to-find materials. This allowed participants to design their own aircraft from scratch, encouraging creativity and hands-on learning.

MINISTRY OF EDUCATION MALAYSIA

On Wednesday, 25 June, teams competed in a flying challenge where the jets were tested for flight stability, control, and overall performance.

UUM International School Melaka proudly represented their school and performed exceptionally well, winning 6th Place in Best Design and 6th Place in Best Flight categories. These awards recognized the team's effort in both engineering design and flying skills, a fantastic achievement on an international stage.

The AIIRC competition is not only about winning but also about learning, experimenting, and pushing the boundaries of what young minds can create. By using affordable materials and encouraging open-ended designs, the event makes RC aviation accessible to more students and hobbyists around the world.

More than just a competition, AIIRC 2025 was a great learning experience. It gave participants the chance to improve their knowledge in aircraft design, aerodynamics, and flight control, while also building teamwork and problem-solving skills.

Congratulations to our UUM International Secondary School Melaka team for making us proud and showing what young innovators can achieve in the skies!

University Exploration Trip: A Day of Discovery

On 24 June 2025, twenty-four of our Years 9, 10, and 11 students, accompanied by six teachers, embarked on a day-long academic exploration to Taylor's University and the University of Nottingham Malaysia.

Afternoon at University of Nottingham Malaysia

At Nottingham, students attended a detailed admissions briefing and explored facilities including engineering labs, creative arts studios, and lecture theatres. The highlight was an interactive economics game led by a professor, where students negotiated prices, managed resources, and experienced market dynamics firsthand. They also had an informal Q&A session with current undergraduates on student life, clubs, internships, and global opportunities.

Morning at Taylor's University

Students began with a warm welcome and a campus orientation, followed by a Social Media in Business workshop. In teams, they analysed real-world campaigns, created mock strategies, and presented their ideas to university lecturers, who gave constructive feedback on content tone and hashtags. A guided campus tour showcased cutting-edge labs, multimedia suites, and degree offerings—providing a real sense of academic life and facilities.

Reflections

The trip offered Year 10 students clarity on subject selection and future paths, while Year 11 students gained insight into university expectations and possibilities. It was a valuable, motivating experience that helped all participants envision their academic futures.

Special thanks to Taylor's University and the University of Nottingham Malaysia for their generous hospitality and engaging programmes.

UUMISM Hosts Successful Golf Clinic and Parents & Child Championship - June 2025

UUMISM concluded its highly anticipated Parents & Child Championship 2025 with resounding success, following two days of enriching golf activities designed to foster family bonding, sportsmanship, and skill development.

Organized by the UUMISM Management Team, the event comprised a comprehensive Golf Clinic on June 13th and the championship round on June 14th, drawing enthusiastic participation from 13 students alike.

Day One: Golf Clinic Emphasizes Skills and Family Bonding

On Friday, 13th June 2025, the Golf Clinic was held at the UUMISM Golf Drill Room and AKCC Driving Range from 10:00 AM to 4:30 PM. Participants engaged in a structured program that included a Fundamental Class (grip, stance, posture, swing), AirSwing Simulation using swing analysis tech, and Short Game Practice focused on chipping and putting. The clinic aimed to enhance skills while fostering parent-child interaction in a fun, supportive setting.

Day Two: Championship Tees Off at AKCC

The Parents & Child Championship took place on Saturday, 14th June 2025, at Ayer Keroh Country Club (AKCC), Melaka. Teams teed off at 7:00 AM, playing across the Governor's Nine and Ghafar's Nine. The event promoted teamwork, strategy, and sportsmanship as parents and children navigated the 18-hole course together.

As the 2025 edition of the Parents & Child Championship comes to a close, UUMISM continues to set a high standard in combining education, family engagement, and sport. Participants left not only with improved skills, but also with lasting memories and deeper connections.

GUNUNG GEULIS
COUNTRY CLUB

UUMISM-Indonesia Golf Camp 2025 to Foster Youth Talent in Bogor

Bogor, Indonesia – UUM International School Melaka (UUMISM), in collaboration with Gunung Geulis Country Club (GGCC) and the Indonesia Golf Association (IGA), is proud to host the UUMISM-Indonesia Golf Camp 2025 from **22 to 24 June 2025** at the renowned GGCC in Bogor.

This exclusive three-day camp will welcome **20 young Indonesian golfers**, offering them a transformative experience in a professional golfing environment. Designed for beginner to intermediate players, the camp will feature expert coaching from UUMISM's seasoned team, blending physical and technical training with strategic course management.

Participants will undergo swing analysis and physical training on Day 1, followed by a mental skills workshop and course strategy session on Day 2. The final day will conclude with an exciting 18-hole match, allowing players to showcase their development.

With strong support from IGA and the exceptional facilities at GGCC, the camp aims to cultivate golfing talent, promote cross-cultural engagement, and encourage sportsmanship among Southeast Asia's youth golfers.
